Caswell Says Never Wed Stage Beauties\_Told to "Beat It."

Dan Caswell, twenty-two, heir to the fortune of the late Daniel A. Caswell, millionaire and former mayor of Cleveland, is being sued for divorce by Jessie Reed, a stage girl, who obtained a temporary injunction holding up his income pending a decision as to the amount of her temporary alimony. To proof her temporary alimony. To provide means for himself during this period he is writing an autobiog-raphy, "Confessions of a Million-aire's Son, or Why Stage Girls Make Bad Wives."

Raising of Embargo Interpreted as Friendly Act of Significance.

By WINDER R. HARRIS.

The first official act of Secretary of State Hughes after his return from his vacation yesterday was an announcement that the embargo on the exportation of arms and munitions of war to

Mexico had been lifted.

It was plainly the desire of the State Department and the Administration to give the impression that this action was designed as a friendly gesture toward the Obregon government. President Obregon, it was suggested, re-gards the lifting of the embarge 'with favor."

Significant Move.

Viewed in the light the Administration would have it appear, this new move in the Mexican situation has a double significance. The fact that the State Department is informed of Obregon's approval shows the two governments are in touch with each other.

The action also is regarded as important in bearing out forecasts that Mr. Hughes would assume personal charge of Mexican affairs on his return. From this angle, friends of the Administration who favor recognition of Obregon believe this first step to be a forerunner of the re-establishment of diplomatic

relations. The text of the State Department announcement follows:
"The embargo on the exporta-"The embargo on the exporta-tion of arms or munitions of war from the United States to Mexico established by the Presidential proclamation of July 12, 1519, having been terminated by the joint resolution of Congress, ap-proved January 31, 1922, which repealed the joint resolution of Congress approved March 14, 1912, which authorized the em-bargo, the Department will not re-establish the embargo at this time. However, the last mentioned resolution authorizes the re-estab-lishment of the embargo by Presi-

dential proclamation if that should at any time appear desirable."

Not To Be Lifted.

It was emphasized that the authority to re-establish the embargo will not be exercised "unless some special

situation develops demanding it." Authorities on Mexican affairs, in and out of the diplomatic corps, were inclined today to favorably view the State Department's action, but were not ready to finally accept as the proper estimate of the situation that
